

**As an added incentive for completing your summer work, current St. Philip Prep students have been registered for this contest. Completing the assigned 10 skills will serve as a good start in competing for the grand prize.**

Soak up the sun—and the learning—with IXL's Study in the Sun contest! Our annual competition is an exciting way to encourage learning over the summer months. Plus, students can win an amazing prize: an iPad or a \$330 VISA gift card!

The contest will have three grade ranges: PreK-4th, 5th-8th, and 9th-12th. The three students in each grade range (nine students total) who answer the most IXL questions correctly between June 12-August 6 will claim the prize.

We'll share leaderboards with the top 20 students in each grade range on the [IXL blog](#) on June 30 and July 21. Winners will be announced on August 14 and will be notified by email.

Be sure to check out the contest rules and FAQs below! (For the full rules, please [click here](#).) If you have any other questions, please email us at [contests@ixl.com](mailto:contests@ixl.com).

## Contest Rules

**Eligibility:** All participating students must register online by August 6 at <https://www.ixl.com/contest/summer>. Students must be registered by their parent (if on a family membership) or their teacher (if on a school account). Eligible registrations should include an accurate IXL username—IXL is not responsible for incorrect or incomplete registrations. Students must be part of an active IXL site, classroom, or family account. Trial members are not eligible. Students must be registered under the grade range that accurately reflects the grade level they are in for the 2023-24 school year. Only results from one account will be tallied for each student—results from multiple accounts cannot be combined. Each participating student must have their own username.

**Determination of winners:** IXL will select the top 3 students from each grade range (PK-4, 5-8, and 9-12) who have answered the most questions correctly on IXL between June 12, 2023, at 12:01 am (PDT) and August 6, 2023, at 11:59 pm (PDT). Winners will be announced on or about August 14, 2023 on the [IXL Blog](#) and will be notified by email.

- Questions in all subjects on the student's subscription will be counted. Questions completed as part of a trial will not be eligible. Questions answered in the Diagnostic arena, Group Jams, or Quizzes are not eligible.
- For students in grades PK-4, questions answered in all grade levels will be counted. For students in grades 5-8, only questions from grade 3 and above are eligible. For students in grades 9-12, only questions in grade 7 and above will be counted.
- Skills that are repeated after they have been mastered (SmartScore of 100) once during the contest period will not be counted. No more than 50 total questions answered (whether answered correctly or incorrectly) by a student in a single skill (prior to reaching a score of 100) will be eligible. No more than 500 total questions answered (whether answered correctly or incorrectly) per day by a student will be eligible.
- In the event of a tie, the student with the higher percentage of correct answers will win. If a second tiebreaker is needed, the student with the higher number of skills mastered will win.
- This contest is intended to encourage students to practice and gain confidence in their skills. Any practice that does not conform to the spirit of the contest will be eliminated at IXL's discretion.

**Prize:** Each winner will have the choice to receive a 64GB iPad® or \$330 VISA gift card. To receive a prize, the entrant must be in compliance with the official rules as solely determined by IXL. In the event a winner is determined not to be in compliance, the prize otherwise due that winner may be awarded to the next eligible entrant.
